1.	Dr. Alston is such a great professor. She was always available and always willing to help. I did not like Research coming in the semester, but I love it now, thanks to her. Dr. Alston makes me dream big and help me with public speaking. She is always your biggest cheerleader. I love her and is taking her class next semester. She always has your back even when you don't. Thank you, Dr. Alston; you are a wonderful person.

1.	Dr. Alston is awesome. Her teaching method is very relatable and I learned a lot in her class. I look forward to taking her again for Reaearch 2
2.	Dr. Alston was a gentle, kind, and respectful Professor who engages her students in conversations related to the subject. Dr. Alston answers questions clearly and always makes sure the students understand the materials before moving forward.
3.	I am new to this area of study, I appreciate having outside speakers also to assist with this course. I like how the instructor provided opportunities to challenge your critical thinking.
4.	My instructor was amazing!!!
5.	Really enjoyed the seminars and group activities with vignettes.
6.	Research is not on of my favorite subjects but Dr. Alston makes it Interesting. She is also respectful and available to consult with students. She has also been encouraging and always says "you got this." Her passion for research is evident. My only suggestion is to not have three workshops. Maybe two so we wontclose three instruction classes.

1.	Dr. Alston is a thorough professor. First impression was she came off full force and she talk too fast but as the semester progressed we opened up to one another about our feelings and stuff. This was a great learning experience and I recommend others to meet Dr. Alston. I've been hearing students stray away from her class because of her teaching style and her attitude. However, my experience was different from what others stated.
2.	Dr. Alston mixes care and a no-nonsense approach to helping her students achieve. If the rest of my graduate experience mimics her methods, I'll be more than satisfied in my experience upon graduation.

| 1. | Dr. Alston is an excellent instructor who appears to be an expert in the field of Reseach Method. Her teaching style is challenging you to use critical thinking in all that you do and demands that one thinks out of the box. I would recommend anyone who wants to be challenged to register for Dr. Alston's class. |

1.	Dr. Alston clearly has a passion for research. She makes a potentially dry subject as engaging as possible.
2.	Dr. Alston is a professor I consider as a "Game Changer"... I went from knowing 0.00% about research to knowing a lot about program evaluations. She checked on me outside of class to make sure I was good, and made sure I corrected any mistakes I may have made on an assignment. She is truly the best teacher in the whole department. She advocates for student's right and will not stop until she sees a chance. I recommend Dr. Alston to any student wishing to learn the true meaning of "RESEARCH"...
3.	Great class
