| 1. | This instructor has overall made the course experience very enjoyable. They were engaging and challenged everyone to think more about the subject matter and how it applies to various topics. The instructor was understanding of differences and open to discussion. The material presented was done so in a very interactive way which allowed for better digestion of the concepts presented. The instructor had high expectations for us but only because they knew we had what it took to be in the course. The class time spent with this instructor was rewarding. |
